DETAILED ACTION

Response to Amendment

This Office Action has been issued in response to amendment filed 17 January 2007. Applicant's arguments have been carefully and fully considered but are moot in view of the new ground(s) of rejection as necessitated by amendment. Accordingly, this action has been made FINAL.

Claim Status

Claims 4-31 remain pending and are ready for examination.

Claim Objections

Claim **10** is objected to as being directed to a different subject matter than that of its parent claim, independent claim 31. Dependent claim 10 recites, 'the system of claim 31' wherein it appears as though a system is not present in independent claim 31.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims **4-31** are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Amended independent claims **11** and **21** as well as newly added independent claim **31** recite, 'the block of memory being integer *N* times the size of the memory page, divide the block of memory into (*N*-1) frames.' This is indefinite. As no positive recitations of restrictions on the selection of *N* as an integer appear in the claims, a case in which the integer zero (0) may be selected exists

Art Unit: 2187

resulting in a size of a block of memory being determined through the multiplication of zero and the size of the memory page, thus resulting in a zero block size. Further, if the integer zero or even one is selected, the dividing of the block by N-1 would result in either a negative or a divide by zero error. Any claim not specifically addressed is rejected to at least by virtue of its dependency.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims **4-10** and **31** are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Newly added independent claim **31** recites, 'a frame handler comprising an application configured to.' As the claim is directed to a software program or application, per se, it does not fall under one of the statutory categories including a process, machine, manufacture, or composition of matter. Accordingly, independent claim 31 and its dependent claims 4-10 are rejected to as being directed to non-statutory subject matter.

Allowable Subject Matter

Claims **11** and **21** would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Claims **12-20** and **22-30** would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Art Unit: 2187

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
